

Cerilliant Named to Top Workplaces in 2011 by *Austin American Statesman*

Round Rock, Texas (November 17, 2011) Cerilliant Corporation has been named one of the Top Workplaces in 2011 by the *Austin American Statesman*.

Workplace Dynamics administered a survey to obtain employee feedback from the companies nominated for the award. Survey question topics included leadership and direction, working conditions, career opportunities, pay and benefits and overall management. According to survey results, Cerilliant employees were especially positive about leadership and direction of the company, as well as strong values and ethics.

“Our employees are our most valuable assets and the key to Cerilliant’s success” says Sherri Pogue, Cerilliant President. “It is a privilege to lead such a talented and diverse team of people who strive to make a difference every day.”

Cerilliant has been a leading innovator serving the analytical testing community for more than 30 years when as a division of Radian International it began manufacturing materials to address the needs of the emerging environmental testing industry. Today Cerilliant has more than 70 employees, offers more than 3000 products, and serves more than 2000 active customers, including federal and state governmental organizations, private laboratories, hospitals, universities, pharmaceutical companies, contract research organizations, and analytical instrument and medical device manufacturers. Cerilliant products are distributed throughout the entire world.
